Mr. James Ford
ActiveCo Computer Solutions Inc.
#203-2502 St. Johns Street
Port Moody, BC
V3H 2B4

Dear James,

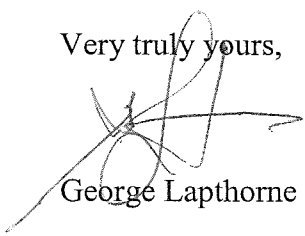

I am pleased to provide you with this letter of reference concerning the service that you provide to our offices in British Columbia.

We have been extremely pleased with the service you have been able to provide to us since the complete upgrade of our hardware and software system in the fall of 2002. I commend you and your staff on the professionalism with which you approached our needs analysis at that time and the recommendations you made to improve and secure our in house systems.

Since that time, your regular system checks, regular communication on potential problem areas, and ongoing recommendations for further improvements to our systems has enabled us to avoid system problems and downtime. I am also most appreciative of the efficiency with which you have responded to, and solved those problems, in house, which have arisen with hardware, software and internet issues.

Should you wish to provide my name to prospective clients, please do so. I shall be more than pleased to speak personally to anyone who would like to know more about the services you provide to us.

Very truly yours,

George Lapthorne

Director of Operations
