Dear James,

Re: Recommendation letter – ActiveCo Computer Solutions Inc.

We would like to show our utmost appreciation and satisfaction to Activeco Computer Solutions Inc. on the services they have provided to Automotive Training Centres over the last couple of years.

When we decided to try ActiveCo's Managed Services we were concerned that as an educational institution we have very unique requirements, particularly with our classrooms for our students. The ActiveCo team found a solution that virtually eliminated all of our issues surrounding our classroom computers, which allows us to focus on our business. The way Activeco also manages our corporate environment with a high degree of professionalism, expertise and courtesy is much appreciated.

Your company's proactive approach coupled with prompt response times, have helped keep our business running efficiently and productively. We also appreciate your liaising between ourselves and our vendors, as it has saved us a lot of time and effort.

I would recommend ActiveCo to any business looking for a reliable and knowledgeable IT company. Should you wish to give my reference to any prospective clients, I would be more than pleased to speak with them about the services you provide us.

Sincerely,

A handwritten signature in red ink, appearing to read "Ricardo Davidson", is positioned above the printed name.
