

activating technology · empowering business

proactive · consistent · reliable

Since 1999, ActiveCo Computer Solutions Inc. has provided professionally managed network services to companies throughout North America. Our proactive approach allows your organization to work with confidence when relying on your computer network. We understand that your network is an essential part of your business. It is our job to ensure it is reliable and reduce down time.

The primary focus for ActiveCo Computer Solutions is to provide superior customer service and information technology expertise. We communicate with you to determine the proper service program to fit your budget and requirements. Then, our team oriented approach provides continuous support to ensure reliability with no single point of failure.

- ▶ We focus on more than just technology: we provide a proactive approach in managing your computer network to maximize your resources and empower your business.

We understand that your business is constantly challenged by the demands of growth and advances in technology. Our focus is to keep your computer network operational so that you can manage your business.

ActivePRO, our managed network service, is fixed-fee managed care providing various levels of support for proactive IT management. Utilizing our framework, you access all the resources you need to keep your computer network up and running to ensure your people and business remains productive.

With managed network services you will see immediate productivity gains and accelerate the return on investment from your computer network.

We take care of everything for you, including:

- ▶ 24 x 7 Real Time Monitoring
- ▶ Proactive Maintenance Scripts
- ▶ Real Time Self Healing
- ▶ Secure Client Portal
- ▶ Virus Protection
- ▶ Disk Drive Analysis
- ▶ Security Patch Management
- ▶ System Auditing
- ▶ Backup and Disaster Recovery
- ▶ Onsite Inspections
- ▶ Quarterly Business Reviews
- ▶ Trend Analysis

You receive regular communication and executive reports to let you know the overall health of your computer network and the results of our services.

ActivePRO managed network services provides reliability and security that will impact your business and your bottom line:

- ▶ Productivity Gains
- ▶ Cost Management and Control
- ▶ Performance
- ▶ Managed Expansion and Growth

ActivePRO managed network services can help you gain powerful insight into your business. By monitoring your systems you control operating costs, reduce the risk of losing valuable company data and protect one of the most important assets in your business - your computer network.

Choose from either our ActivePRO Silver or Bronze programs. Each offers a fixed monthly fee with the option to add services as they fit your requirements and budget. We are available 24 hours a day and 7 days a week through remote and on-site support. To learn more about how we can help you manage your computer network, call us today.
